

NO TO BIKE PARKING CHARGES

www.notobikeparkingfees.com

The City of Westminster have introduced parking charges for all motorcycle parking bays across the borough.

There are plans to organise regular protests in central London to demonstrate our opposition to these inappropriate charges and the next one is planned for Sunday 28th September (check on the above website for more information).

According to their literature these charges have been justified to fund the provision of a further 1000 spaces, installation of security devices and enforcement.

The amount of publicity surrounding the consultation process, in comparison to the introduction of charges, has been totally inadequate and the depth of consultation is laughable. In their proposal document* they have stated they currently provide 4,500 free spaces however when they conducted their web survey only around 30 who took part, out of a possible 4500, said they would be prepared to pay (12% of 243 respondents).

The proposals are projected to cost £958,000 and income is projected to be £585,000 a year. This means the costs will have been paid back within 2 years at which point charges will, at the very most, only need to meet minimal maintenance costs.

We can get this experimental charge reversed – please add your voice by objecting, in writing, to The Council’s Agent, West One, 59 Buckingham Gate, London SW1 6AJ quoting ref: 5303/ALJ.

WRITE NOW, RIGHT NOW.

Sending your objections by post is really important.

Please don’t leave it to others as the number of objections will be a major consideration.

SPREAD THE WORD

If you travel around and use different bike bays please download this document at www.notobikeparkingfees.com, print out copies and leave them on as many bikes as possible everywhere.
